

Falls from height – any height – cause injury to individuals and cost all companies involved time, money and reputational damage.

Guest Speaker

9:00am

Listen to the life story of Dylan Skelhorn – a solid fuel heating engineer whose fall left him with life changing injuries and a devastating legacy. Dylan presents a dramatic and stark picture of what can happen when it goes wrong – you will not take your safety for granted after hearing him speak.

Location

Bridgwater Auction Centre near Junction 24 on the M5.

Working at Height?

- Work Safer With Us!

SCF Health & Safety Forum 27 September 2018

You will meet the Health and Safety Experts from eleven leading contractors who have extensive experience of planning and implementing systems of working safely and using appropriate equipment.

This is your chance to

- ✓ ask questions
- ✓ discuss problems
- ✓ and find solutions

The forum wants to hear about your views and experience to help contribute to safer construction sites. The SCF contractors are delivering over 60 major construction projects in the South West with a value in excess of £700m.

**Shaping public
construction**

* This event is for subcontractors who work with our principal framework contractors
