in SCF Frameworks

ABOUT US

SCF Construct is a public sector construction framework, designed to support public sector organisations in the South of the UK with the procurement of construction projects.

With over 15 years experience, we have delivered £8.2 billion worth of combined construction schemes, establishing us as a leading procurement framework.

Our framework is modelled on ‘Two Stage Open book’ procurement, which makes the procurement process as effective as it can be through early engagement and collaborative working.

Using our framework will give you access to industry leading contractors and consultant partners who have assisted 120 clients. On average we deliver 10% added value on every project, making your investment go further.

Our dedicated Framework Management Team will help make the procurement and project management process simple and easy to manage.

OUR AIM

The underlying philosophy behind SCF is to improve the predictability of project cost, time and quality performance. This is achieved through the early engagement of our contractors in the project design. This collaborative approach helps mitigate the risks associated with lowest price tendering and also encourages arrangements to drive out waste from the project process.

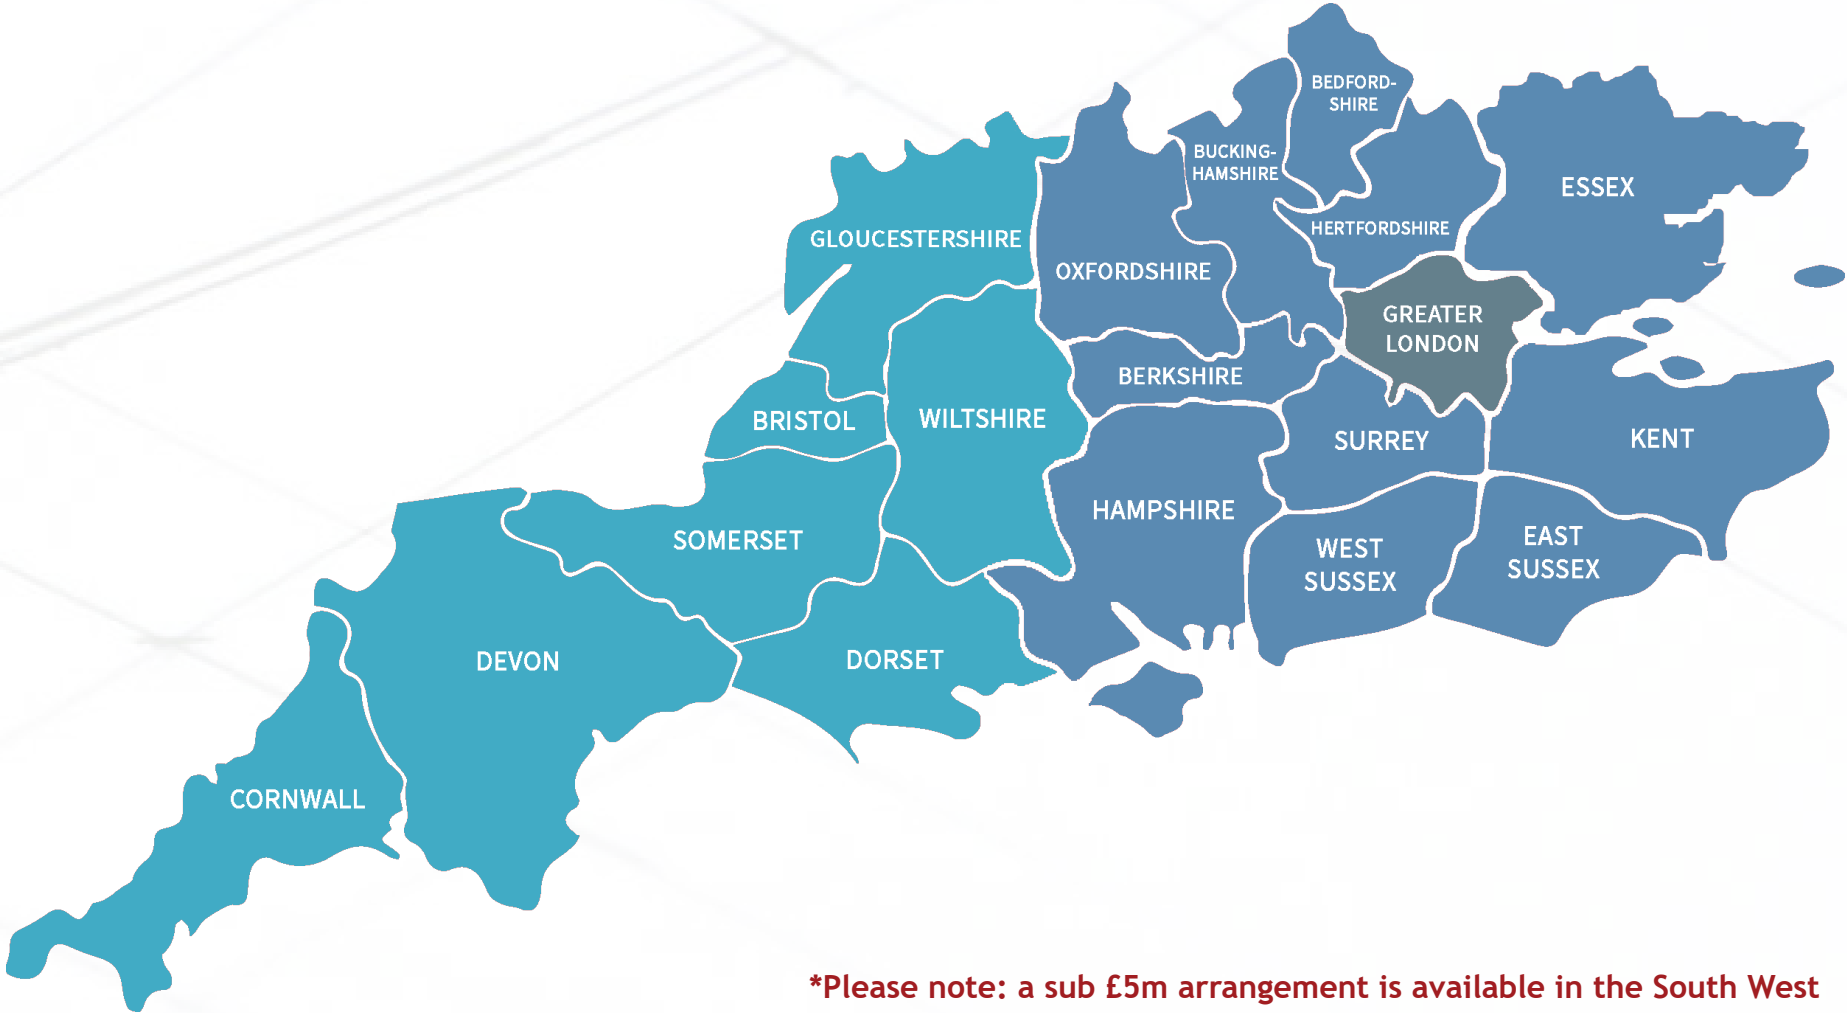

OUR SERVICE IS DELIVERED ACROSS THE SOUTHERN REGION IN GEOGRAPHICAL LOTS

Our main services include:

- Initial consultation, advice and market intelligence
- Dedicated Framework Team
- Procurement compliance and best practice
- Quick route to market
- Fully managed procurement process
- Quality assurance and contractor management
- Transparent open book procurement

Our framework contractors can be called upon to provide additional services such as:

- Feasibility and viability reports
- Pre-tender review and feedback
- Design management and construction expertise
- Post handover support and advice

***Please note: a sub £5m arrangement is available in the South West**

OUR TYPICAL PROCESS EXPLAINED

As a framework, our role is to make the procurement process for your project as simple and as transparent as possible. Our team offers end to end support, and will manage the whole process on your behalf, working collaboratively with you and our framework contractors. The process map below outlines a typical project, however our process is flexible, allowing us to **create a bespoke solution to satisfy your project requirements**.

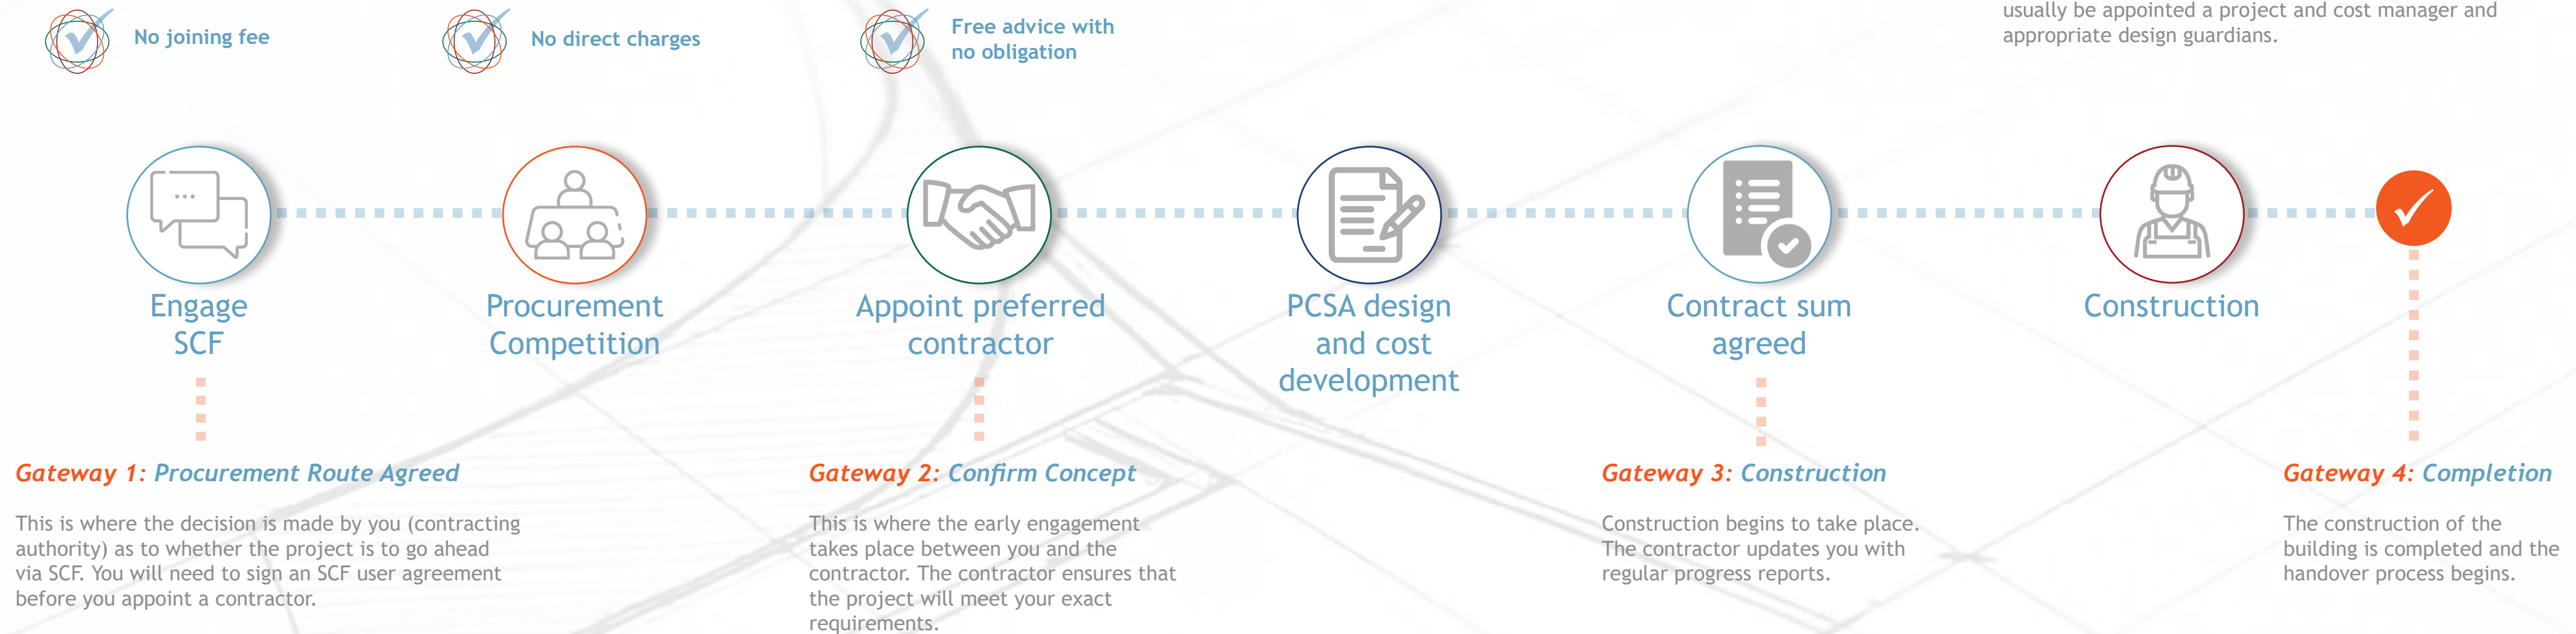

We follow a **Two Stage Open Book** approach which can be delivered as a:

Traditional Contract

This is where you employ your own consultants, or in-house designers and engage our contractor at an early stage as a member of the project team. By doing so, it allows our contractor to share their expertise and ensures all parties understand and are satisfied with the project requirements before awarding a works contract.

Design and Build

This method is where our framework contractor is responsible for providing design services during the pre-construction stage. This early engagement is a great opportunity for you to work with the contractor, confirm requirements and be clear on project deliverables before awarding a works contract. In this instance, you will usually be appointed a project and cost manager and appropriate design guardians.

SOCIAL VALUE

Social value is integral to our processes and operations. We are committed to delivering social outcomes through our projects across the South of England, and in support of initiatives via our role in the National Association of Construction Frameworks (NACF).

Our focus is to achieve long term legacies through the built environment, whilst aiding our clients to exceed the requirements of the Public Services (Social Value) Act 2012, and the United Nations Sustainable Development Goals incorporating the need to end the UK's contribution to global warming by 2050. Our framework is constantly striving to raise the bar for our public sector clients.

SCF use nationally recognised Key Performance Indicators to benchmark, set and measure tangible outcomes at both framework and project level. Specifically we use client prioritised themes and outcome measures (TOMS), adapted employment and skills plans (ESP) and direct or supported apprentice recruitment.

SOCIAL PARTNERSHIP PORTAL

As a founding member of the Social Partnership Portal, which is a specific area of our mandated Digital Supply Chain Portal system, main contractor procurees have direct access to Voluntary, Community and Social Enterprises (VCSE) companies who are able to provide supporting and direct services for our projects.

The Digital Supply Chain Portal is a mandated process under SCF, providing clients with direct access to traditional and social suppliers to maximise social value opportunities.

ENSURING TRANSPARENCY IN THE SUPPLY CHAIN

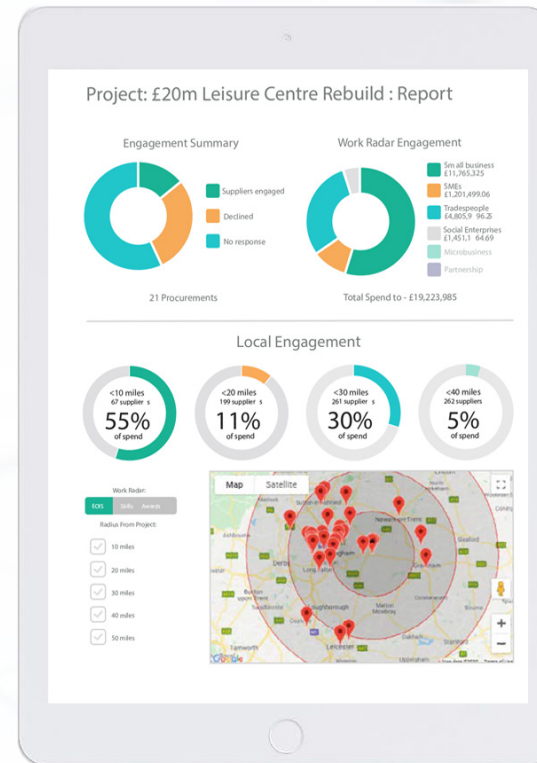

As leaders in Two Stage Open Book procurement, we continue to search and implement new ways to ensure that our contractors work with clients to create a collaborative and transparent project environment.

Our Digital Supply Chain Portal enables contractors to source, manage and engage local suppliers. Our contractors are expected to advertise, shortlist and award main sub-contract packages using this system.

As an SCF client, you will have direct access to the portal enabling transparent oversight in a live environment.

We will support you through the process with training available for you and your consultant teams.

More information can be found [here](#).

Benefits of our Digital Supply Chain Portal

- Greater transparency
- Competitive pricing with 25,000 registered suppliers
- Increased opportunities for local suppliers and SME's
- Real time client team review of package procurement
- Engage with specialist suppliers for early advice
- Demonstrating best value in procurement

OUR FOCUS IS TO ENSURE CARBON REDUCTION MEASURES ARE CONSIDERED AND ADAPTED ON OUR PROJECTS

AIM

To help clients, stakeholders and framework partners to meet local, national and global goals in achieving the net zero carbon ambition, working with communities to deliver a net zero future.

SAVINGS

Reducing our overall carbon emissions, preserving the planet for future generations and a thriving built environment.

TARGETS

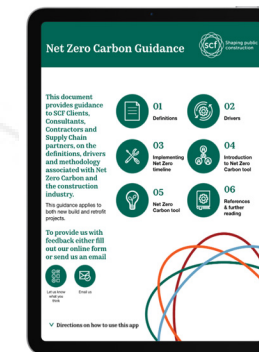

Achieving the ultimate aim of Net Zero Carbon, utilising a full suite of option appraisals reflecting current sustainable technologies.

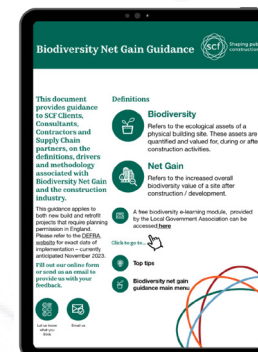

Use of the SCF Sustainability Resources

We are dedicated to helping our clients on their journey to understanding and implementing key sustainability themes through their project delivery.

We have created two guidance tools to support our clients and stakeholders, and aligned the guidance to the RIBA design development stages, providing tips and information throughout the design lifecycle. The two tools comprise of the SCF Net Zero Carbon guidance and the Biodiversity Net Gain guidance. Both tools contain information around terminology, government guidelines and legislation, measurement formats, professional disciplines to consult and finally, some key areas of focus aligned to the RIBA stages.

ADDITIONAL FRAMEWORKS

SCF Frameworks now comprises of three complimentary frameworks:

The introduction of these additional frameworks allow you to have all aspects of your construction requirements overlooked by us, providing a transparent and seamless customer experience. We continuously strive to improve our offer to the public sector, working closely with our framework users, contractors and consultants to ensure frameworks are fit for purpose and deliver demonstrable benefits to the public sector.

Our Residential Delivery and Development framework provides a tailored framework solution to support residential developments. The framework is available to all Registered Providers in the South of the UK including Local Authorities and Housing Associations. The framework supports a full range of residential construction and development solutions. From quick and easy access to leading local housebuilders, for traditional contract or design and build, to turnkey end-to-end development, construction, and management services, the framework will provide a trustworthy, equitable, and ethical vehicle for delivery.

The framework is structured to suit a wide range of projects, with larger value projects delivered in regional lots, and smaller value areas split sub-regionally, focussing on local delivery. Construction, development, or a combination of both, can be called off from the framework.

Using SCF Residential gives you instant access to industry leading contractors & developers who will help improve the predictability of project cost, time and quality performance. You will also benefit from our end to end support (dedicated Framework Manager per project), which features throughout all stages of the procurement process, leading through to handover & aftercare.

Our consultancy framework enables public bodies to gain access to professional property asset consultancy services and resources, to deliver capital projects, programmes and strategic advice.

We offer high-quality, multi-disciplinary consultant services with rapid speed to market, nationally rebased rates, proven delivery partners and their supply chains with sustainability at the core of its purpose.

The consultant framework can be used by any public sector organisation in the South of England. Utilising the established Two Stage Open Book process, SCF Frameworks achieve true transparency in procurement and a complete solution for the delivery of key public sector works.

WHY SCF

Our framework is by the public sector, for the public sector and we are constantly striving to raise the bar for our clients to help achieve long term sustainable legacies.

With over 14 years experience, we have demonstrated the significant benefits of true collaborative working.

Our dedicated framework management team are always available to provide client support and guidance.

The fundamentals of all our projects include our key values (linked below), and our top tier contractors have evidenced they can meet the ever increasing needs of the local communities.

Fair.

Our prompt 30 day payments and open book processes encourages trusted and efficient supply chain partnering.

Safe.

Our accredited workforce benefit from well-being initiatives, improved welfare standards and innovative safety training.

Legacy.

Providing long term legacies through our projects providing tangible social and economic benefits.

Sustainable.

We act ethically and responsibly sourcing 65% local labour... to protect and enhance the environment.

Aftercare.

Our handover promise begins at pre-construction and includes bespoke training, refresher sessions and dedicated resource.

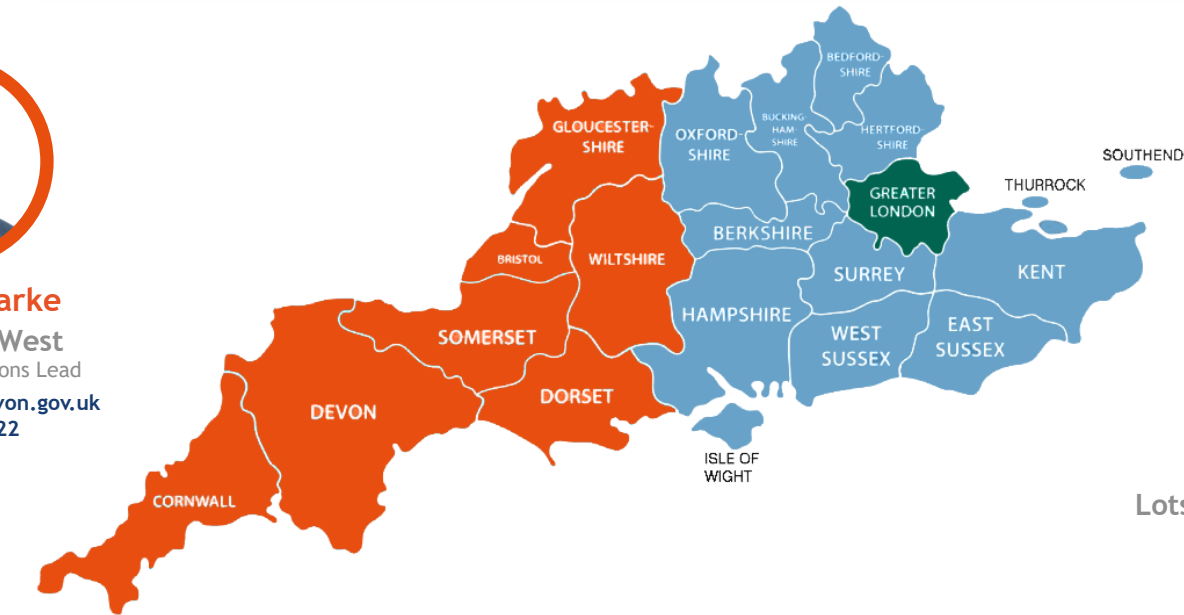

LET US SUPPORT YOU WITH YOUR CONSTRUCTION PROJECT

Our team of Construction and Procurement experts will be able to support you throughout the project management and procurement process.

For general enquiries, please email info@scfframeworks.org.uk or speak directly to your [Regional Framework Manager](#) and find out how we can support your project.
