ABOUT US

SCF Construct is a public sector construction framework, designed to support public sector organisations in the South of the UK with the procurement of construction projects. This guide is developed to assist in understanding how the framework can potentially support your projects into procurement and beyond.

Our Framework is modelled on ‘Two Stage Open Book’ procurements, which makes the procurement process as effective as it can be through early engagement and collaborative working.

Using our framework will give you access to industry leading contractors, who will help improve the predictability of project cost, time and quality performance.

Our dedicated Framework Managers will help make the procurement and project management process simple and easy to manage. Framework Managers are on hand through the entire process and offer impartial advice, can enable additional professional services and provide templates and full support through the administration of the tender document formation and subsequent selection.

OUR SERVICE IS DELIVERED ACROSS THE SOUTHERN REGION IN GEOGRAPHICAL LOTS

OUR AIM

The underlying philosophy behind SCF is to improve the predictability of project cost, time and quality performance. This is achieved through the early engagement of our contractors in the project design. This collaborative approach helps mitigate the risks associated with lowest price tendering and also encourages arrangements to drive out waste from the project process.

Our main services include:

- Dedicated Framework Team
- Procurement compliance and best practice
- Quick route to market
- Fully managed procurement process
- Quality assurance and contractor management
- Transparent open book procurement

Our framework contractors can be called upon to provide additional services such as:

- Feasibility and viability reports
- Pre-tender review and feedback
- Design management and construction expertise
- Post handover support and advice

By the Public Sector, for the Public Sector

WE DELIVER

New Builds

Refurbishments

Extensions

Fit Outs

Primarily the Framework has been designed to help in the delivery of new building projects and refurbishments in the South of England. We aim to simplify your project experience and help projects maximise outcomes delivered, ensuring projects reach their full potential. Regardless of which stage you are at with your project and procurement process, we can help.

To help achieve these core aims the Framework will give you access to leading SME & Tier 1 Contractors. Alongside the building projects the Framework and its partners can also help your projects in a number of other key sectors, if you are unsure whether your project is a suitable fit please get in touch to explore further.

We are fully compliant with the Government [Construction Playbook](#), following best practice within the industry.

Contact us today and our team will help guide you to the right approach for your project.

TYPICAL DELIVERY PROCESS EXPLAINED

As a framework, our role is to make the procurement process for your project as simple and as transparent as possible. Our team offers end to end support, working collaboratively with you and our framework contractors, to carry out exemplar projects that deliver value in line with your organisation's key drivers. The process map below outlines a typical project, however our process is flexible, allowing us to **create a bespoke solution to satisfy your project requirements**.

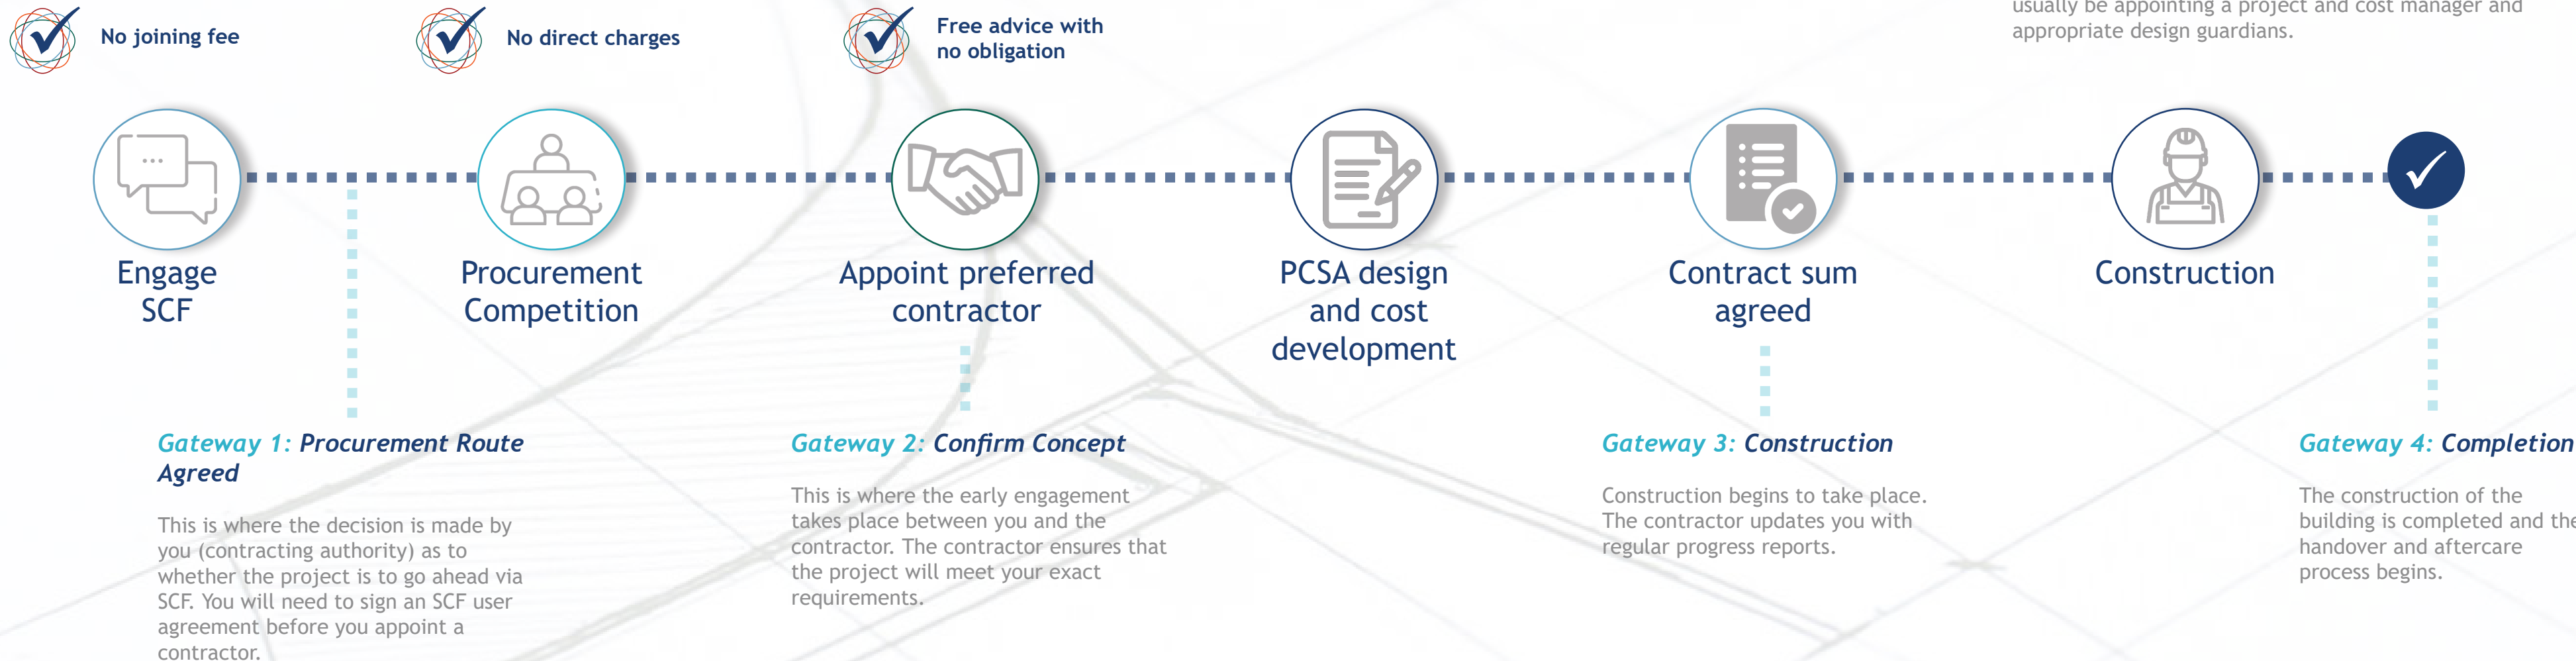

We follow a **Two Stage Open Book** approach which can be delivered as a:

Traditional Contract

This is where you employ your own consultants, or in-house designers and engage our contractor at an early stage as a member of the project team. By doing so, it allows our contractor to share their expertise and ensures all parties understand and are satisfied with the project requirements before awarding a works contract.

Design and Build

This method is where our framework contractor is responsible for providing design services during the pre-construction stage. This early engagement is a great opportunity for you to work with the contractor, confirm requirements and be clear on project deliverables before awarding a works contract. In this instance, you will usually be appointing a project and cost manager and appropriate design guardians.

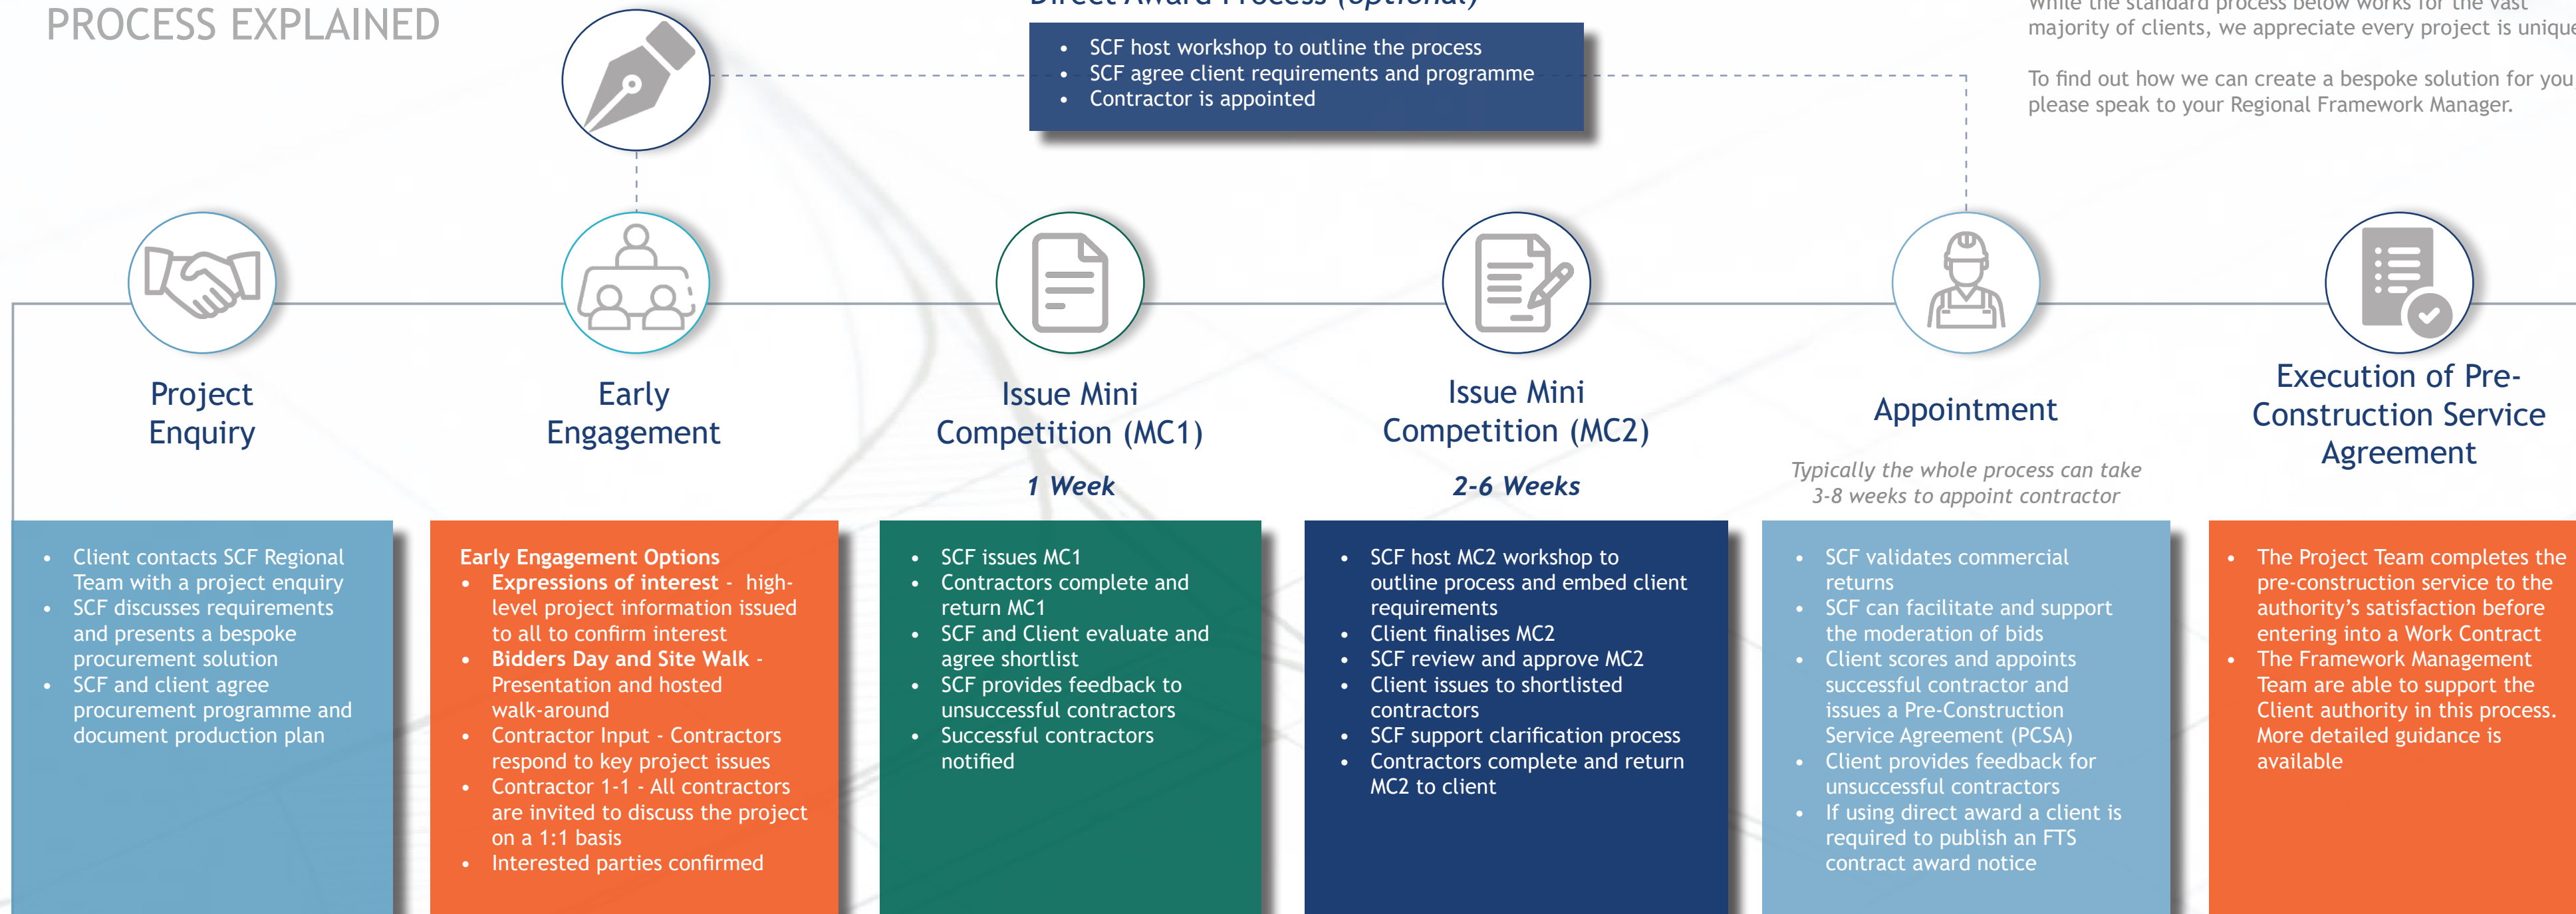

CONTRACTOR SELECTION PROCESS EXPLAINED

Direct Award Process (*optional*)

- SCF host workshop to outline the process
- SCF agree client requirements and programme
- Contractor is appointed

While the standard process below works for the vast majority of clients, we appreciate every project is unique.

To find out how we can create a bespoke solution for you, please speak to your Regional Framework Manager.

SOCIAL VALUE

Social value is integral to our processes and operations. We are committed to delivering social outcomes through our projects across the South of England, and in support of initiatives via our role in the National Association of Construction Frameworks (NACF).

Our focus is to achieve long term legacies through the built environment, whilst aiding our clients to exceed the requirements of the Public Services (Social Value) Act 2012, and the United Nations Sustainable Development Goals incorporating the need to end the UK's contribution to global warming by 2050. Our framework is constantly striving to raise the bar for our public sector clients.

SCF use nationally recognised Key Performance Indicators to benchmark, set and measure tangible outcomes at both framework and project level. Specifically we use client prioritised themes and outcome measures (TOMS), adapted employment and skills plans (ESP) and direct or supported apprentice recruitment.

**SOCIAL VALUE IS AT
THE HEART OF
EVERYTHING WE DO**

SOCIAL VALUE BENEFITS

Client-led bespoke social outcomes for each project

More opportunities for SMEs, VCSEs, micro and local businesses

Mandatory employment and skills plan on all projects

Scorecards to measure clients and contractors performance in supporting social value

SOCIAL PARTNERSHIP PORTAL

As a founding member of the Social Partnership Portal, which is a specific area of our mandated Local Supply Chain (LSC) system, main contractor procures have direct access to Voluntary, Community and Social Enterprises (VCSE) companies who are able to provide supporting and direct services for our projects.

The LSC system is a mandated process under SCF, providing clients with direct access to traditional and social suppliers to maximise social value opportunities.

**SOCIAL PARTNERSHIP
PORTAL**
FOUNDING MEMBER

ENSURING TRANSPARENCY IN THE SUPPLY CHAIN

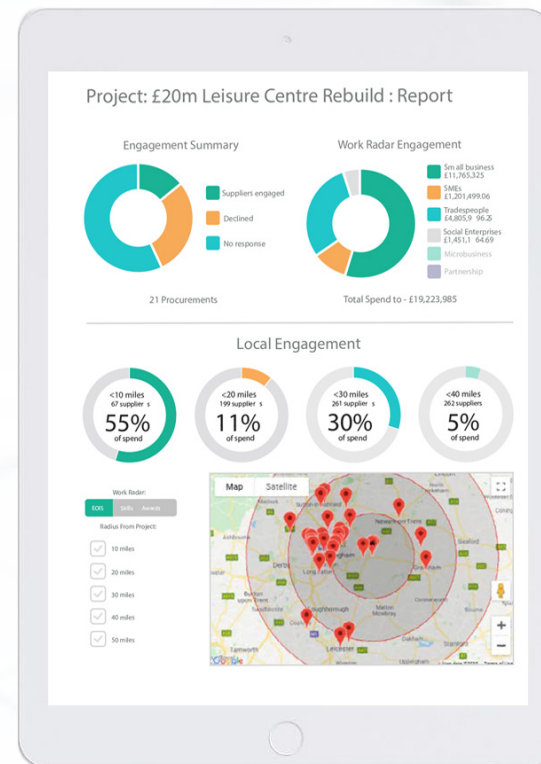

As leaders in Two Stage Open Book procurement, we continue to search and implement new ways to ensure that our contractors work with clients to create a collaborative and transparent project environment.

Local Supply Chain (LSC) is an online portal that enables contractors to source, manage and engage local suppliers. Our contractors are expected to advertise, shortlist and award main sub-contract packages using LSC.

As an SCF client, you will have direct access to the portal enabling transparent oversight in a live environment.

We will support you through the process with training available for you and your consultant teams.

More information can be found [here](#).

Benefits of LSC

Greater transparency

Competitive pricing with 29,000 registered suppliers

Increased opportunities for local suppliers and SMEs

Real time client team review of package procurement

Engage with specialist suppliers for early advice

Demonstrating best value in procurement

OUR FOCUS IS TO ENSURE CARBON REDUCTION MEASURES ARE CONSIDERED AND ADAPTED ON OUR PROJECTS

AIM

To help clients, stakeholders and framework partners to meet local, national and global goals in achieving the net zero carbon ambition, working with communities to deliver a net zero future.

SAVINGS

Reducing our overall carbon emissions, preserving the planet for future generations and a thriving built environment.

TARGETS

Achieving the ultimate aim of Net Zero Carbon, utilising a full suite of option appraisals reflecting current sustainable technologies.

Use of the SCF Sustainability Tools

We are dedicated to helping our clients on their journey to understanding and implementing key sustainability themes through their project delivery.

We have created two guidance tools to support our clients and stakeholders, and aligned the guidance to the RIBA design development stages, providing tips and information throughout the design lifecycle. The two tools comprise of the SCF Net Zero Carbon guidance and the Biodiversity Net Gain guidance. Both tools contain information around terminology, government guidelines and legislation, measurement formats, professional disciplines to consult and finally, some key areas of focus aligned to the RIBA stages.

ADDITIONAL FRAMEWORKS

SCF Frameworks now comprises of three complimentary frameworks:

The introduction of these additional frameworks allow you to have all aspects of your construction requirements overlooked by us, providing a transparent and seamless customer experience. We continuously strive to improve our offer to the public sector, working closely with our framework users, contractors and consultants to ensure frameworks are fit for purpose and deliver demonstrable benefits to the public sector.

Our Residential Delivery and Development framework provides a tailored framework solution to support residential developments. The framework is available to all Registered Providers in the South of the UK including Local Authorities and Housing Associations. The framework supports a full range of residential construction and development solutions. From quick and easy access to leading local housebuilders, for traditional contract or design and build, to turnkey end-to-end development, construction, and management services, the framework will provide a trustworthy, equitable, and ethical vehicle for delivery.

The framework is structured to suit a wide range of projects, with larger value projects delivered in regional lots, and smaller value areas split sub-regionally, focussing on local delivery. Construction, development, or a combination of both, can be called off from the framework.

Using SCF Residential gives you instant access to industry leading contractors & developers who will help improve the predictability of project cost, time and quality performance. You will also benefit from our end to end support (dedicated Framework Manager per project), which features throughout all stages of the procurement process, leading through to handover & aftercare.

Our consultancy framework enables public bodies to gain access to professional property asset consultancy services and resources, to deliver capital projects, programmes and strategic advice.

We offer high-quality, multi-disciplinary consultant services with rapid speed to market, nationally rebased rates, proven delivery partners and their supply chains with sustainability at the core of its purpose.

The consultant framework can be used by any public sector organisation in the South of England. Utilising the established Two Stage Open Book process, SCF Frameworks achieve true transparency in procurement and a complete solution for the delivery of key public sector works.

WHY SCF

Our framework is by the public sector, for the public sector and we are constantly striving to raise the bar for our clients to help achieve long term sustainable legacies.

With over 14 years experience, we have demonstrated the significant benefits of true collaborative working.

Our dedicated framework management team are always available to provide client support and guidance.

The fundamentals of all our projects include our key values, and our top tier contractors have evidenced they can meet the ever increasing needs of the local communities.

Fair.

Our prompt 30 day payments and open book processes encourages trusted and efficient supply chain partnering.

Safe.

Our accredited workforce benefit from well-being initiatives, improved welfare standards and innovative safety training.

Legacy.

Providing long term legacies through our projects providing tangible social and economic benefits.

Sustainable.

We act ethically and responsibly sourcing 65% local labour... to protect and enhance the environment.

Aftercare.

Our handover promise begins at pre-construction and includes bespoke training, refresher sessions and dedicated resource.
